## Experience

### September 2021-Present

NetSol Technologies., Lahore

### Full Stack Developer

- Developed more than 10 highly functional web applications to analyze and process data for various clients
- Ensure applications' ability to interact with multiple APIs and databases
- Designed and created a knowledge management platform using technologies like Node.js, Typescript, Dgraph, React, and Mobx
- Developed and implemented a standalone data extraction "agent" and main-application features for a financial product
- Work closely with app development team to determine problems, testing methods, and best practices
- Optimized the company's complaint handling process by creating and delivering highly efficient app-based solutions

### April 2018-August 2021

Q-Soft Technologies, Lahore

### Full Stack Developer

- Developed full-stack applications across various platforms using latest industry-adopted technologies and frameworks
- Played a key role in the development, improvement, and operation of web-based software
- Gained hands-on expertise in Bootstrap, Foundation, Express, and similar back-end Node.js as well as front-end presentation frameworks and web application frameworks
- Conducted unit and load testing for high profile customer-facing applications, which reduced system failure by 70%
